NORTHSIDE HIGH SCHOOL COMMUNITY
Total Receipts in Ads and Compliments $ 260

The Northside Community covers an area of approximately 360 square miles. The school community is located in the Northwestern corner of Tuscaloosa County. It is bounded on the West by Pickens County, on the North by Fayette and Walker Counties, on the East by the Warrior River, and extends South to within ten miles of the city of Northport.

Children are transported to the three schools located in this area: Gorgas Elementary just East of Highway 43, 25 miles North of Tuscaloosa, Montgomery Elementary 28 miles North of Tuscaloosa on Highway 171, and Northside High School on Highway 43, 20 miles North of Tuscaloosa. Busses transport ninty-three percent of the students enrolled in the Northside High School.

Many people in this area earn their livelihood working on farms such as: cattle farms, dairy farms, poultry farms, tree farms, row crop farms and truck farms. Approximately 90 people are employed by the Brown Wood Preserving Company located west of Highway 171, 25 miles North of Tuscaloosa. Two local gins take care of the ginning needs of the cotton farmers. The trucking industries within the area help the saw mills and people engaged in the timber business get their commodities to market. Industries in near-by towns employ many people of the Northside School Community.

Community grocery stores and filling stations can meet many of the needs of the people within this area.

Tuscaloosa

Total Receipts in Ads and Complements $644

As a result of the Creek War central Alabama was opened to settlement by white people. Tuscaloosa and Northport were located at the head of navigation on the Warrior River. The first settlers came to Tuscaloosa in 1819. In the Choctaw language Tuscaloosa means "Black Warrior."

While Tuscaloosa was the state capital (1826-1846) the University of Alabama was opened, the Indians were moved to the Far West, and the State Bank failed.

The Alabama Institute of the Mentally Ill was opened to patients in 1861. During the Civil War prisons and hospitals were located in Tuscaloosa and many refugees came. In April, 1865 Croxton's men burned the principal buildings at the University, several factories and the river bridge.

The City National Bank was founded in 1865 and the First National Bank in 1871. In 1871 the A.G.S. railroad reached Tuscaloosa. Telegraphic communication was established in 1869 and the first telephone was installed in 1878.

The boom of 1887 marked the modernization of Tuscaloosa. It resulted in the establishment of a public school system, a waterways system, electric lights, and influenced the building of locks on the Warrior River.

Tuscaloosa has a population of about 75,000, an area of 25 square miles and 200 miles of paved streets. Tuscaloosa is still the educational capital of the state since it is the home of the University of Alabama.
